Rev A	Original revision
Rev B	Tender revision
Rev C	Major revision to all paragraphs
Rev D	The structured cabling specification has been updated
Rev E	The PA system has been removed from the contract

1.0 EXTENT OF WORKS

1.1 SCOPE

This Electrical Specification applies to the Dan Murphy's portion of the project and is to be read in conjunction with the main electrical services specification.

If any inconsistencies arise between the requirements of the Dan Murphy's documents and the main electrical services specification allow for the most expensive option and requires a direction in writing.

Provide the electrical services within the Dan Murphy's portion of the project in accordance with the relevant components of the generic specification (DMSPEC-E-Electrical Specification_RevA) C2499a-0019(A).pdf.

The PA system within the Dan Murphy's portion of the project will be provided by a specialist contractor directly engaged by the client.

Provide an AS1670.1 fire detection system within the Dan Murphy's portion of the project in accordance with the relevant components of the generic specification (DMSPEC-FP-Fire Protection Specification_RevA) C2499a-0021(A).pdf. The Dan Murphy's fire alarm system is to be independent to the hotel / motel fire alarm system.

Provide the structured cabling services within the Dan Murphy's portion of the project in accordance with the relevant components of the generic specification (Woolworths Group Information Technology Stores Structured Cabling Specification Version 2021-Q10 C2499a-0022(B).pdf.
