The Iron Dome Pendant Light is a bold industrial-style fixture with a rustic edge, designed to bring character and warmth to interiors with a vintage or industrial aesthetic. Its perforated metal shade creates a dynamic play of light and shadow, adding texture and atmosphere to kitchens, dining areas, or lounge spaces. Over time, the finish naturally develops a patina, giving each pendant a one-of-a-kind, aged appearance that enhances its raw, crafted appeal.

Offered in four sizes and five distinctive finishes, the Iron Dome Pendant works particularly well above kitchen islands, over dining tables, or in boutique cafes and bars where statement lighting is needed. Its solid construction ensures durability while its textured metal shade makes it a standout feature, combining rugged industrial charm with functional ambient lighting.

The Brass finish within our image gallery may vary depending on the natural light and light source at the time of photography. Over time, natural brass will develop a patina due to oxidation. Contact our customer service for colour matching. Please see the full disclaimer below.
