1M (2 GLOBE/M) COMMERCIAL GRADE LED FESTOON LIGHTING

\$55.00 + GST

- 1 +

DESCRIPTION ADDITIONAL INFORMATION LED DRIVER

Commercial Grade LED Festoon Lights 0.5M Spacing

Low Voltage 24V | Custom Lengths | IP65 | Black or White Cable

Our most popular **0.5M spacing** festoon lights are ideal for bars, hotels, and restaurants, offering perfect mood lighting with **two globes per meter**. Sold by the meter, we can custom make any length you need, usually by the next business day. These **24V extra low voltage** lights are built to withstand harsh outdoor environments with durable, **weatherproof rubber cables**, unlike cheaper PVC options.

The filament-style LED globes mimic "Edison" bulbs but are efficient LEDs made from break-resistant plastic. With an **IP65 rating**, these weatherproof and UV-resistant lights are safe and can be installed almost anywhere. They come with a **2-year warranty**. To power them, you'll need our MeanWell LED Driver and a Driver Connection Lead.

We also offer a range of individual festoon bulbs in various colours:

- Blue 24v Festoon Globe
- Frosted Cool White 24v Festoon Globe
- Frosted Warm White 24v Festoon Globe
- Green 24v Festoon Globe
- Orange 24v Festoon Globe
- Pink 24v Festoon Globe
- Red 24v Festoon Globe
- Yellow 24v Festoon Globe
