

LIGHTERIOR

Parlour Geo Pendant Light

Parlour Geo Pendant Light is contemporary in its form, featuring a geometric shape that has been streamlined by its smooth curves to counteract its angularity.

The glass can be installed in two different positions to customise the impact of the iron or old brass finish.

Due to the nature of the materials and the hand-finishing process, there may be small variations in the finish and tone of the Parlour iron and brass suspensions.

The Parlour Geo Pendant Light features in our Top 10 Scandinavian Lighting Ideas for a Dining Area.
