## Edge Wall Light

Edge Wall Light by Lighting Republic balances crisp geometry with refined detail, offering a contemporary interpretation of classic design influences.

A sleek wall-mounted bracket in either Old Brass or Iron supports a cylindrical borosilicate glass shade, available in clear, ribbed or frosted finishes.

The contrast between hard edges and the smooth curve of the metal structure, and the crisp silhouette of glass creates a clean, balanced architectural profile, ideal for adding structure and depth to hallway lighting, mirror sides, or bathroom settings.

With its IP44 rating, it is engineered for damp environments without compromising on design.

This designer wall light offers a sophisticated lighting solution that complements both modern and traditional interiors, blending minimalism with subtle visual texture.

|                         |                                         |
|-------------------------|-----------------------------------------|
| <b>Dimensions (cm)</b>  | H23 x W7 x D9.5                         |
| <b>Application</b>      | Indoor                                  |
| <b>Material</b>         | Borosilicate Glass & Aluminium          |
| <b>Structure Finish</b> | Old Brass or Iron                       |
